Distinctive Styles

For Fall

Fashion has decided on some very distinctively new styles for Fall. One of the most pop-ular is the Wrap-Around with ular is the Wrap-Around with its large button or a tie. An-other is the wrappy Plaid Coat. Velours, Bolivias and some the loveliest pile fabrics are among the cloths used in these Coats. You are invited to in-spect these while the nicest ones are still here. We know you'll like them.

Suits for Autumn

Distinctive Styles For Fall

Fashion has decided on some very distinctively new styles for Fall. One of the most pop-ular is the Wrap-Around with its large button or a tie. An-other is the wrappy Plaid Coat, Velours, Bolivias and some of the loveliest pile fabrics are the loveliest pile labrics are among the cloths used in these Coats. You are invited to in-spect these while the nicest ones are still here. We know you'll like them.

Suits for Autumn

divide their favor between beautifully fur-trimmed garments, and plain tailored styles. Finest of fabrics are used in these perfectly tailored models. The prices are quite reasonable too, particularly when one considers their fine quality.

Frocks of Poiret Twill

There are exceptionally good values in this lot of Wool Frocks. Bought at a special price and marked at a special price for quick sait. A more of pretty styles are shown in Black and Navy. Materials are fine Poiret Twill and Tricotine. They are worthy of inspection. Triced 222-75.

"What's the News?"

WHEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the wars, the man who had been down to the settlements, or the

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of events.

"What's the News?"

W HEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the wars, the man who had been down to the settlements, or the neighbor back from the general store.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is advertising.

It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of events.

Advertising is an essential news service. It is distinctly to your advantage to be guided by it.

And the best of it is 'II be insured all the times and if anything should happen to nor, you would be all region."

And he went into details until Mary terrupted.

"See here," she said. "When you mentioned all that money we paid for the apartment, I had an idea. Why not take

out a policy for each of
us? I'm sure it would
cost us no more than the
apartment, and it would be a good way
to save money. Then if anything, happened to me—you would-be all right."

"Nothing is going to happen to you,"
John assured her. "But," he added,
"it's a good idea. We'll make assurance

WM. REDICK,

BREAK YOUR DATE WITH HAY FEVER

If you are among those who have a date to begin sneezing with hay fever on or about this time of year, make up your mind to break the date this year. You never wanted to keep it anyway. To some it always comes at the same hour on the same day of each hay fever season. It was never a welcome guest. It is always a darn bore and a nuisance.

Some are immune from this ailment. Only about one in twesty keep the date. They are the ones who are susceptible. To be sus-expelled power all spaces present and tissues have to be below expelled power and tissues have to be below that the suspension of the suspe

The Family Milk Supply

CARNATION Milk is the only milk supply your family needs. It is really more, because it serves as both cream and milk.

Fresh from the can it has creamy consistency because about 60% of the natural water content has been taken away from it by evaporation, then sealed in the container and sterilized. Use it for tea, coffee, fruits, cereals and desserts.

By adding a little more than an equal part of water to Carnation Milk you have milk of natural consistency. You get "whole" milk-rich, wholesome and pure-for cooking, drinking-for every milk use.

There is no waste to Carnation Milk -it stays sweet in the can indefinitely and for several days when opened. Order several tall (16 oz.) cans or a case of 48 cans from your grocerthe Carnation Milkman.

Try this recipe-and write for your copy of the Carnation Cook Book. Over 100 tested recipes—FREE.

WHISPERS AND ACTION

"Whisper'ef floath" articles published in the columns of the Montres Star have produced an effect, but it appears that the effect may not have been that which the Star desired. Because of the velled hints and warn-ings contained in the articles and vague explanations in connection with certain charges readers inter-ested directly in the economic structure of Canada have sharply criti-cised the policy of the Star. They

cised the policy of the Star. They assume that the Star's propagated attractive and the strongly suggested sinister and easier of Providence. When a people have ready access, in a physical have ready access, in a physical They point out that propaganda of that type instead of being beneficial minds of those not familiar with cost difficient in Gaussia. There is equivily in practically all these of balances of the course of the cost of the inspiration of the cost of balances of the cost o plied charges in the Star's article

In this respect the Star's mission has been partially accomplished at least. Men in financial and industrial cirbeen contained to citstatistics to disprove statements of the Montreal organ and certainly these figures give no hint of disaster. However, statistics do not tell the story and it is possible that rement and improvement can be y effected if the proper ds are adopted. Yet conditions readily effected if are not such that it is necessary for Canada to broadcast to the world direful tales of distress and impend ing disaster. Such stories are al ways exaggerated in the minds of readers and only harm can result.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is

"What's the News?" WHEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?" That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the wars, the man who had been down to the settlements, or the neighbor back from the general store.

EXPECT GREAT THINGS in the NEW CADILL'AC

Even the superb quality which you have long associated with the name Cadillac is no ade quate measure of the merits of the New V-63.

The simple truth is that Cadillac has advanced its own standards and achieved, in this car, heights of quality which are strictly new.

Your attention is directed, particularly, to these three elements:—

The New Cadillac V-Type 90°, 8-cylinder engine - harmonized and balanced by entirely new principles of design to a degree of smoothness unapproached in automotive manufacture.

New Body Styles-destined by their graceful, symmetrical design, distinctive finish and exquisite appointments, to be the center of admiration in any company.

Cadillac 4 Wheel Brakes—a safety factor developed with the care and thorough-ness characteristic of Cadillac engineering.

New delights await you also in enhanced dependability, ease of control, riding rest-fulness and, indeed, in every phase of car performance.

It is entirely logical that Cadillac, pioneerleader of eight-cylinder manufacture in America, should now raise multi-cylinder practice to an even higher pitch of excellence.

This is exactly what has happened in the New V-63, and Cadillac urges you to approach this fine car with great expectations.

The young men's offense was a paricularly fingered on, since it was committed upon a public thoroughfare, the rightim being a young girl whou ha concentered on the readway.

It was because of the menace to so-

not subscribe to corporal punishment convicted persons. They consider the eties too vividiy reminiscent of an tier day when courts of justice wer nt to provide fearsome and varied shoots of punishment. Among these re the stocks, the pillory, the ball and chain, and others graded in their apparent effectiveness according to the seriousness of the offense.

This practice was patently a hang-reg from a still earlier period in high the atavistic characteristics of

During the last half-century penol tem" in the treatment of prisoners. The question, but there is no doubt that in this age of refinement and more or less estheticism 'corporal punishment as a court practise is rapidly losing its pop-ularity. The time will soon come who the instruments of corporal punishment

will be found only in museums.

In the meantime our lawmakers must provide penalties calculated to check offenses against society and the lash is a product of their philosophy. It may be an anachronism, but certainly it is effective and perhaps when it di

PAPER PULP PROSPECT.

The time may not be far distan when newspapers and periodicals, nor generally careleasly thrown aside when read, will be carefully hounted and resold. Moreover, there is likely to be a time, not far in the future, when ou newspapers and our magazines will

coat us much more than they do today.

It is generally known, of course, that
paper is made from pulpwood, and pulpwood, an important forest product, is
caree. In fact the supply has diminished at an alarming rate during the
past few years. It has been estimated past few years. It has been estimated that the supply of pulprocod in the United States will be exhausted in 30 years. The southern republic now imports from Canada 30 per cent of her pulprocod needs. Canada has been obliged to place as embarge on the export of pulprocod timber to the United States to needs the room suffered to the states of the stat dustries and there has been considerable criticism voiced in the United Kingcriticism voiced in the United Mag-dom of sales of timber tract to Amer-ican firms to be used in the production of pulpwood. The Australian govern-ment's explanation of their refusal to fix a preferencial tax on imports from Canada was that they did not consider a perferential tariff fair in view of th amount of American money inveiled in Canadian industries. It is significant that the Australian government cited

WHEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the wars the man who had been down to the settlements, or the neighbor back from the general store.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is

It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of events.

Advertising is an essential news service. It is distinctly to your advantage to be guided by it.

finds us with a complete line of Shoes for Men and Women comprising Canada's leading Shoes. These are shoes made by firms who give attention to style, comfort and long-wearing qualities.

This, combined with our reputation of a perfect fit for every foot, insures the wearer of comfort supreme.

Our lines are complete with shoes for Men and Women, also an extra fine line of School Children's Shoes.

SHOES FOR WOMEN

We sell the Empress, Gracia and J. T. Bell, that are beautifully styled. These shoes invariably combine appearance, comfort, and general durability as well as establish a new lower price level. You must see these shoes to know of their real value.

SHOES FOR MEN

Shoes made of the finest of leather, by expert workmen—shoes which satisfy your pride of appearance yet give the maximum of wear—shoes when, worn all day, leave your feet rested and comfortable at night. In a word, shoes that meet all the requirements you could expect of them. The Slater, Monarch, Astoria, Doctor Antiseptic and Non-Perspéro Shoes are all sold by us.

SHOES FOR CHILDREN

We carry a range of Shoes for Children that protect the feet from the wet and damp weather and thereby ensure the last word in foot comfort. This com-bined with the long-wearing qualities of our shoes, makes them a superior article for the price.

TRAVELLING GOODS

We show the most complete line of Leather Goods in this city, and you are red of courteous treatment. We cordially invite your inspection. No obligato buy. Complete line of Club Bags. Suit Cases, Trunks, Etc., on hand.

"What's the News?"

WHEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago; folks asked it of the post rider, the soldier returned from the wars, the man who had been down to the settlements, or the neighbor back from the general store.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is advertising.

It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of events.

Advertising is an essential news service. It is distinctly to your advantage to be guided by it.

C. B. Scantlebury

"What's the News?"

WHEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the years, the man who had been down to the seklements, or the neighbor back from the general store.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far-of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is advertising.

It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of eyents:

Advertising is an essential news service. It is distinctly to your advantage to be guided by it.

SINCLAIR'S

Beautiful Wraps

Made from the season's loveliest fabrics, such as Marvella, Gerona and, Duvetyn, these wrappy Coats for Fall are created in most beautiful styles. Laxuriously trimmed with Beaver, Sable, Fox or Fitch and lined with finest of aliks and satira, they are garments worthy of your consideration, and we invite your inspection and comparison of values.

Serviceable Suits

Suits for Fall are shown in the regulation tailored style, and also in more dressy suits of the straight-line, boxy type. Tailored suits are perfectly fashioned of Poiret Twill and Tricotine of excellent qualities and will prove to be very serviceable.

Priced \$35.00 to \$47.50. Suits in Box Types are shown at \$50.00 and \$85.00.

STYLISH FROCKS For Stout Women

The difficulty in finding frocks that combine good style and large sizes has been overcome this season. These Dresses are made in new styles that have sienderizing lines suited to stout flagures. Serges, Tricotines and Poiret Twills are used in these Dresses, at \$12.00 to \$42.50.

"What's the News?"

WHEN Columbus and his caravels returned from the New World, the first question shouted from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the wars, the man who had been down to the seklements, or the neighbor back from the general store.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is advertising.

It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of events.

Advertising is an essential news service. It is distinctly to your advantage to be guided by it.

It is contended by the District officials that these remediworks will restore the lake levels dis advantageously affected by the diver

It is patent that the abstraction It is patent that the abstraction from the watershed of the Great Lakes of any large quantity of wa-ter, such as the Chicago Sanitary District is diverting, must materially affect the levels of the Great Lake affect the levels of the Great Laker and produce, in consequence, a ser-ious effect upon navigation. In re-fusing a former request from the District, the United States Secretary of War stated that diversion of 10, 000 cuble feet per second from Lake Michigan "would substantially interfere with the navigable capacity of Lakes and their connecting rivers He also declared that the provision of the Canadian Treaty for a set ant by foint commission of equestions or matters of difference ada offered a further reason why as undretaking, manifestly so injuto Canada and against Canadian pro test, should not be authorized. It is impossible, as Sir-Adam points out, to compensate by artificial means the international waters for the thousands of cubic feet of water which are being continuously divert ed from the Sanitary District. With out sanction by the United States government, Chicago may divert 4, 167 cubic feet per second, but the right does not appear to have been recognized by the Canadian govern ment. A Great Economy Achieved When McClary's Discovered "Stored Heat"

BUT, you may ask, did McClary's discover it?
Not exactly that—because the first "stored heat" cooking was probably with stones, heated in'a fierce wood fire.
And "fireless cookery" has been developed to some extent in this are.

And lifetees cookery make been developed to some extent in this age.

But for all practical purposes of cookery, in perfecting and applying the "stored heat" principle to the electric range—McClary's are the discoverers of the fact that great cooking heat can be retained and "stored"—from electrical current—long after the current has been turned "off".

And so we have embodied in Mc-Clary's Electric Range the "stored heat" principle.

NEW DODGE BROTHERS CARS EASY RIDING

It doesn't take an owner long to detect the remarkable riding qualities of the new Dodge Brothers Motor Cars. The cars have been tried out now over every kind of going and the riding comfort has been demonstrated thoroughly. It is felt in both the front and rear seats, regardless of position or road conditions. There is no questioning the feeling of unusual documfort and the definite impression of stability and solicity which contribute so materially to satisfaction in divring. The splendid riding comfort of the new Dodge Brothers cars is due largely to the type of rear spring suspension employed. The rear springs which are extremely long, are underslung. Also, the fact that the body has been lengthened and lowered tends to make the car cling more firmly to the road. The new car is, in every sense, a zemakably casy riding ear.

Monday Health Talk No. 3 WM. REDICK,

WHEN YOUR NERVES GET ON THE OUTSIDE

When your nerves get on the outside of your clothes, as Elbert Hubbard used to say, you are a nuisance to yourself and your friends. The victim of a nervous breakdown usually complains of weakness in every organ of his body, but the weakness invariably includes the stomach and usually seems centred there.

The chiropractor makes his analysis of the spine taking a typical case here is what he usually finds, though no two cases are exactly alike. There is nerve pressure on the spinal nerves to liver and kidneys to the lungs quite often, and almost always to the stomach and stomach region, affecting what is known as the solar plexus. By chiropractic spinal adjustments these nerves are freed and the afferorgans begin to function normally. The body is built, the nervousness disappears.

WOOLEN FABRICS

For Fall

New Woolen Fabrics for Fall have been coming in till now our stocks are quite complete with lovely materials.

New Coatings

Bolivis, Duvetyn, Camel's Hair and Velour are abown for Autumn Coats. Some of these beautiful fabrics are shown only in coat length; which will make early selection desirable. All wool, of course, and being from the best English mill sasures their fine quality. The prices are quite moderate.

Striped Skirtings

Grey, Black, Brown and Navy are used in com-binations in these soft-toned Wool Skirtings. They are 48 inches wide and made in a fine soft finish. One or two of the designs would be about perfect for dresses of quiet style. English cloths, priced \$1.50 yard.

Woolen Crepes

This very stylish fabric is shown in a fine range of colorings, including some high shades. A fine crepe for Autumn frocks. Shown in two qualities. 39 inches wide, at \$2.00 and \$2.35 yard.

Dress Trimmings

Cabochons, Buckles, Beaded Drops and all the newest touches in trimmings in colored beads, jet or metal are shown in great variety. They will provide that last touch to your frock or cost.

The new Canadian Government Loan affords a real opportunity to investors.

The Bonds run for a longer term than any other Canadian Government domestic issue—a full twenty years.

Five year Bonds are also available.

The price is very favorable.

The terms for converting from the issue due 1st November, 1923, are liberal and the method very simple.

(United Press Despatch)

IN MOVE UPON GOVERNMENT

Berlin, Sept. 26 .- The Communist party yesterday delivered an ultimatum to the Socialist party demanding that they, join the Reds in an attempt to seize the government. It requested a reply by six o'clock to-night.

Berlin, Sept. 26 .- After eighteen Premiers of the Federated German Republic had accepted the Ruhr passive resistance capitulation, the Government turned its attention to two sources of revolutionary danger. These are Bavaria, where, it was learned General Von Ludendorf and Herr Hittler re uested 40,000 monarchists to join in a march against Berlin and the Ruhr districts, where hundreds of thousands of workers, agitated by Communists, are expected to refuse to resume wor!

Paris, Sept. 26-Grave troubles are expected in Crefeld, following the cessation of passive resistance in the Ruhr, the Mayence correspondent of Le Journal telegraphed to-day.

Berlin, Sept. 26 .- Approval byState Premiers of Chan cellor Stresemann's decision to abandon passive resistance the Ruhr has relaxed the tension considerably throughout Germany to-day.

Minister of War in Charge in Germany-Friend of Crown Prince Rupprecht, Military Ruler of Bavaria by Government Authority-Fascisti in Bavaria Active-Meetings Are Called Through State to Promote Interests of Revolt

(United Press Despatch)

Berlin, Sept. 27.-Germany is under a limited state of siege to-day, under proclamation issued by President Ebert early this morning.

Berlin, Sept. 27.—President Ebert early this morning pro-claimed "ausnahame zutande", which is similar to martial law, for the German nation. At present it delegates executive part to Minister of War Gessler, who becomes military ruler of Germany.

Berlin, Sept. 27,-Chancellor Stresemann called an extraordinary session of the cabinet at midnight and decided that the national government will refuse to recognize the Bavarian dictatorship and will oppose it with all means in its power.

Berlin, Sept. 27 .-- A dictatorship was declared in Bavaria last night. Gustav von Karh, former premier, and friend of Crown Prince Rupprecht, has been given complete control of the Bayarian republic.

Berlin, Sept. 27.—Adolph Hittler, commanding the grey-shirted Bayarian Fascisti, calls for war. Munich is filled with posters calling 14 mass meetings,

Not Skate This Year

Saranse Lake, N.Y., Sept. 26. (United Press) .- It is being report ed throughout the northern Adiron dacks that Charles Jewtraw, the Lake Placid speed skater who last year won the International champion ship, will not skate this winter.

The champion is anxious to enter-college as soon as possible, and de-votes much time to his studies. For that reason it is reported he will not this winter have time to train and travel the long distances traveled each year by the speed skaters in the United States and Canada.

If he decides to drop the game for 1923-24 it will be a sewere blow to the Adronades (Sating Association, Egyptian searchs, Mr. Lê members of which were depending Mr. Lattleneck-literature on Jewtraw to again clean up for cl. Miles Flusor. They're

"What's the News?"

 $\mathbf{W}^{\mathrm{HEN}}$ Columbus and his caravels returned from the New World, the first question should from the shore was, "What's the news?"

That's always the question of paramount importance. Years ago folks asked it of the post rider, the soldier returned from the wars, the man who had been down to the settlements, or the neighbor back from the general store.

To-day, you find the answer in your newspaper. Through the newspapers the news of the world and of the community quickly becomes public knowledge. And remember this—it takes two kinds of news to make a modern paper complete.

The first tells of happenings near and far-of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The second tells of things you eat, wear and use—things you buy, things being sold to your friends and neighbors. This news is advertising.

It's just as important to keep up-to-date on the advertising in this paper as it is to read about what's doing in the world of events.

Advertising is an essential news service. It is distinctly to your advantage to be guided by it.

Men Hold Up Toronto Bank Employes and Secure \$3,027 -Victims Identify Them From Pictures of Escaped Men-Police Now Believed To Be Speeding on Hot Trail But All Information is Withheld

ered police car left the City Hall, filled with police and detec-tives heavily armed. They are in pursuit of the bandits who robbed the Bank of Nova Scotia branch at the corner of Ossington and St. Clair avenues yesterday at noon. Officials refused to divulge their destination to newspaper men, but it is believed that they are acting on a tip received to the effect that the ban-dits have been located. All information is being withheld, however, and police would not discuss the matter. At 2.30 p.m. no further information had been received.

1:00 STOLE STIRLING CAR, BELIEF \

Toronto police officers are certain that the bandits who pulled off the daring daylight robbery are the four escaped bandits from Portsmouth penitentiary, and Belleville Provin-cial police officers are certain that the men who robbed the bank were the four who stole Frank Sarles' Maxwell touring car from the Methodist church shed at Stirling, more than one week ago.

Nothing has been heard of the Sarles' car since it was taken, and the fact that two gasoline stations at Peterboro w entered early on the morning following the night of the theft at Stirling, leads the local officers to this conclusion.

A SOLUTION

Rev. A. S. Kerr, paster of St. An from a three-months' stay in Scot-nd and England, where he served land and England, where he served for a portion of that time as a vis-ting minister, has brought back with him a wivid impression of social and political unrest. To be sure, the sit-uation is in no sense alarming yet

the dissatisfaction is apparent. Rev. Kerr refers particularly to lectiand for the reason, undoubtedly, that he studied conditions the closely. It is natural that he should encounter evidences of s only exhibited characteristic of The Scotch people possess a rugged-pass of physique and mind which one can readily imagine was acquired or at least enhanced by the equally

Ample Room for Four

THE unquestionable dependability—the strikingly handsome appearance—and the decidedly low cost of the New 1924 McLaughlin-Buick "Master Four" Four-Passenger Coupe make it the logical choice of business and professional men.

On account of its ease of control—its lux-urious finish and appointments, "milady" will find it the ideal car for shopping, while its roominess and generous luggage com-partment add to its desirability as a family

To the recognized McLaughlin-Buick standards of reliability and performance have been added four-wheel brakes, a new and more beautiful body design and many other improvements. The result is a closed car of a quality and appearance never before obtainable at so moderate a cost.

Fourfold Protection for Family Man

The Mutual Life of Canada has acquired an experience of over thousands and thousands of policies. Our experience convinces us that for the average family man the most useful and economical form of insurance is the proft-participain; [ong-term, endowment policy. This policy matures at a specified advanced age, but is of course payable at proof each if that age to not artisated.

at prior death if that age be not attained.

Annual dividend are pul to holders of these policies and results
will surprise those who have not realized what Mutuial profrisparticipations can accomplish towards leastening the cost of life insurance. On
the control of the cost of the cost of the cost of the cost of the cost
holders at maturity have actually received in cash 100% more than
they have deposited with the Company as premiumal.

This form of insurance provides against both premature death and
helpies of age.
